

# AVIATION WEEK EVENTS

## Brazing Symposium 2014

September 23-24, 2014

Sheraton Wild Horse Pass Resort & Spa – Phoenix, AZ

Join brazing experts in the aerospace and power engine industries for the inaugural Brazing Symposium.

### WHAT:

The **Brazing Symposium** will enable attendees to find information about brazing techniques, applied research and the latest innovations in the field. The symposium will welcome participants dedicated to theories, experiments, simulations and applied aspects on brazing of parts for high-temp applications.

### WHO:

The Symposium will draw a very selective group of delegates who are influencing the brazing industry. Participants, including both delegates and speakers will be selected for participation based on their educational and occupational achievements within the brazing community.

### WHEN:

September 23-24, 2014 (Tue-Wed)

### WHERE:

Sheraton Wild Horse Pass Resort & Spa  
Phoenix, AZ

# FOCUS

Aero and  
IGT engines

### ADVISORY BOARD:

Chairman - Daniel Kay, Brazing Consultant, Kay & Associates

- Joe Bassindale, Engineering Manager, Manufacturing, Turbine Combustion Systems, Woodward Inc.
- Cal Lacasse, Consultant, CaLacasse.com
- Srikanth Kottlingham, Principal Engineer – Joining & Fabrication Technologies, Gas Turbine Special Processes, GE Power & Water
- Matt Pohlman, Engineering Fellow, Materials & Process Engineering, Honeywell Aerospace
- Ron Smith, President, S-Bond Technologies and Chair, American Welding Society (AWS) C3 Brazing and Soldering Committee
- Jeff Thyssen, Technology Leader, Brazing and Heat Treating; Principal Engineer, Joining Technology; Manufacturing Process Engineering, GE Aviation
- Dr. Ray Xu, Senior Specialist – Joining Technology, Rolls-Royce Corporation

### CONFIRMED SPEAKERS:

- William Coughlin, Metglas
- Stephen Danilak, Applications Engineer, PVT, Inc.
- Brian Frazier, Technical Director, AimMRO
- Jay Kapur, GM, Aimtek
- Daniel Kay, Brazing Consultant, Kay & Associates
- Dr. Stephen Liu, Director of the Center for Welding, Joining & Coatings Research, Professor of Metallurgical and Materials Engineering, Colorado Schools of Mines
- Dr. Warren Miglietti, Senior Repair Technology Engineer, Power Systems
- Don Mittendorf, Honeywell
- Dr. Ray Xu, Senior Specialist – Joining Technology, Rolls-Royce Corporation

### OPPORTUNITIES: SHOWCASE

The **Brazing Symposium** will feature select exhibitors showcasing products, technology and expertise that deliver improved efficiencies, reduced costs and increased levels of productivity.

### SPONSORSHIP:

This event is open to a limited number of sponsors who want high-visibility with senior level decision-makers who influence purchasing and business development. No other medium offers such targeting, control, efficiency and measurability with your best prospects and customers in a professional and intimate atmosphere designed for doing business.

### PARTICIPANTS INCLUDE:

### ABOUT US:

As the acknowledged leader for the aviation/aerospace industry, Aviation Week, a division of Penton, is proud to produce a series of global events to explore critical issues with this industry. When your company sponsors an Aviation Week Event, you immediately raise your profile among the influential class of aviation, aerospace, government and military executives.
